

Service Case Study

Our experience with LEOxChange and support!

Thanks for the great service that the LEOxChange platform offers. My friends and I have sold over 100.000 LEOcoins on LEOxChange and need to tell everyone that we are really happy with the service and how fast everything is!

You can deposit LEOcoin in a few minutes and then sell in a few seconds and also make GBP (fiat) withdrawal in a few minutes. The money will come to your bank account in 2 days. Sometimes it arrives the next day! This is great; that you can mine LEOcoin and sell it on the same day!

From time to time we experienced some small errors, but that is normal with every internet site or exchange. When it happens we contact support and they reply in 24-48 hours. We need to give a big big thanks to Mr Marios Mamzeris since he is always ready to help and to reply within minutes and he gives great support! I really hope LEOxChange will have more guys like him.

This tells you a lot about how legitimate the LEOcoin cryptocurrency is.

- B. L.

We are also really happy that LEOxChange has increased the withdrawal and deposit limits for fiat currencies to 2.500GBP! We hope to see LEOcoin deposit limits at 5.000 or even 10.000.

One more time big huge thanks for the amazing service that <http://www.LEOxChange.com/> offers!

We also need to give thanks to Mr Dan Andersson for all he does for the LEOcoin cryptocurrency community. We really believe in him and his work and we know LEOcoin will have an amazing future and I am sure that soon the cryptocurrency world will know of LEOcoin. Keep up the good work!

B. L.
